Printed Range

Our beautiful and exclusive "Berkeley Collection" of printed designs for bed linen and curtains. Complies with fire safety standard BS7175, ignition source 7.

Suitable for use in all public locations. We can bespoke any of our designs or provide additional colourways upon your request.

Single Duvet Cover	137cm x 198cm + 30cm
Pillowcase	48cm x 74cm + 13cm

Also available in other sizes and styles

In meeting Customers' needs for Fire Retardant Bed Linen for medium to high risk end use, Thomas Kneale and Co Ltd manufactures Inherently Fire Retardant Ring spun Quality 100% Polyester Sheeting compliant with the highest Fire Retardancy Standard of B.S. 7175 Ignition Source 7.

These high performance Fire Retardant Flat and Fitted Sheets, Duvet Covers, Pillowcases and Valances in both plain dye or printed bed linen can safely be issued in locations where the need to consider fire safety is a priority. This can apply to any Institution ranging from a Hotel to an Oil Rig, a Prison to a Training Centre, a Hall of Residence to a Police Custody Suite, to mention just a few.

In contrast to other fabric blends which are treated with fire resistant coatings and tend to lose their fire proofing with repeat washing and leach out, Thomas Kneale's inherently fire Retardant Polyester Bedding cannot lose its Fire Retardancy qualities as the Fire Retardancy remains permanently in the fabric.
